Kemal Maulana

Project Manager & Mobile Engineer · Bandung, Indonesia
kemalmaulana19@gmail.com · @kemalmaulana · kemal-maulana

SUMMARY

Mobile engineer turned project manager with 8+ years shipping production apps: native Android (Kotlin/Java) since 2018, Flutter since 2021. Focused on clean architecture, readable code, and ship quality that holds up over time.

EXPERIENCE

Project Manager · Reacteev.id
Mar 2025 — Present · Bandung
Managing multiple concurrent client projects across CRM, finance, education, and retail domains in an agile/Scrum environment. Facilitating sprint retrospectives across teams, and producing monthly executive reports (RAG status, KPIs) with a Python/ReportLab pipeline I built to automate report generation.

Mobile Engineer — Tenaga Ahli Programmer · Dinas Komunikasi, Informatika & Statistik Kab. Bandung Barat
Mar 2021 — Present · Bandung Barat
Developing and maintaining a Flutter application serving citizens and civil servants, deployed to both Android and iOS, plus additional applications built on request for government service needs.

Android Developer · PT. Kreasi Inovasi Digital (WorkLife&Beyond)
Mar 2020 — Feb 2021
Built performance management, social media, and people-profile modules for a Human Capital Ecosystem application.

Freelance Android Developer · Self-employed
Jan 2019 — Dec 2020
Delivered native Android projects for various clients alongside full-time roles.

Mobile Developer · PT. Kunci Transformasi Digital
Aug 2018 — Mar 2019
Built a student monitoring application integrated with a parental notification system.

EDUCATION

Bachelor of Informatics Engineering, Pasundan University. Thesis bridging IoT and mobile.
